DEFEATED AT LAS VEGAS.

Base Ball Tossers of the University Met Their Waterloo in the Meadow Town.

Word was received in this city that night that the base ball players of the New Mexico University—those mighty warriors of the diamond field who have several local scalps at their belt for good playing during the season—met their Waterloo at Las Vegas yesterday afternoon, being vanquished in right royal manner by the Meadowlarks who represent the Normal school of that town, score 35 to 12.

Although defeated, the University team did some good work, our informant said that Richard Armsby smacked a home run along Hot springs branch, while the other members of the team, Herzer and Harrelson, executed a couple of very difficult double plays. French, who pitched for the University boys, is credited with seven strikeouts, and still, in the face of such a plashing record, the Normal school team won up enough games to win the gallant visitors from Alpine in a fairly good opposition.

After the game the visitors were entertained at supper by the Normal school girls and in the evening all were entertained at a social.

The following extract is taken from the report published in the San Fran-
cisco Examiner:

"The coupe were crossing a trestle just beyond San Angelino station when the train had left a few moments before, thundered upon them. Longwill got off the bridge a few feet in advance of the girl and his wife, who missed a step and her foot went between the strings. He fell in front of the engine and her dress caught fast in the drive wheels and she was dragged 20 yards before the train came to a standstill. By that time she was beyond help, and he died an hour and a half later without recovering consciousness."

The deceased was a sister of Mrs. C. Whitehouse of this city, who left a few days ago to enjoy a vacation in southern California, and of Mrs. E. Weiss, also of this city.

Longwill got off the bridge a few feet in advance of the girl and his wife, who missed a step and her foot went between the strings. FORGED CHECKS.

A daring attempt made in Phoenix the other day.

Those people who do not wish the Commercial club used to boast political bosses have the American privilege of withdrawing from the organization, and a large number think of doing so at the head of the month.

Mr. L. L. Dudson and daughter, Miss Matilda May, will leave to-night for Palisado, Tenn., where she will visit her parents during the summer months.

Not knowing how it could be and having several hundred dollars on deposit there, the company wrote for their checks etc. A few days later the bank was the recipient of a letter stating that three of the checks amounting to \$150 were forged. Mr. Stevens was wired to come down. He arrived in Phoenix last night, and this morning was staying in a private room of the bank with Cashier Knott and Attorney Chambers examining the checks and ascertaining which were forged and which were not. When a check was presented bearing the name of Wm. Stevens as superintendent of the company.

The holder of the check was compelled to go to the room occupied by the above gentlemen. The letter did not say who the man was, and not realizing that he was the forger he was allowed to get away. Up to a late hour this afternoon he had not been apprehended. One of the three forged checks had been cashed in Tampa, one by Southern Bros. and the other by an unknown party—Enterpriser.

Free. Dr. Pierce's "Medical Adviser," cloth bound," writes James E. Crumpton, Esq., of Shreveport, La.: "I send you mine to you who are using your 'Golden Medical Discovery,' and I cannot praise your medicine too highly. I was in business in Baltimore and had rheumatism for three months; couldn't walk at all. I tried the best doctor I could get, but they did me no good. I took three bottles of your medicine, and it cured me sound. I came home to Sharpsburg, and there were three cases of different diseases. I advised the patients to use Dr. Pierce's medicines, which they did, and all were cured."
